

REDUCED ELECTROMAGNETIC EMISSION LEVEL COMPUTER POSITION

It is designated for classified data generation, storage, processing and printing.

MAIN FEATURES AND PARAMETERS

Equipment:

- PC with reduced electromagnetic emission level (central unit, safe keyboard, computer mouse)
- laser printer with reduced electromagnetic emission level
- LCD panoramic monitor with reduced electromagnetic emission level

Information protection against electromagnetic permeability:

- fulfils requirements of the NATO SDIP-27 Level A (AMSG 720B) standard
- possesses the JCW ABW certificate
- may get the JC SKW certificate

APPLICATIONS

In military and governmental institutions, banks etc. for classified documents processing and printing.
